

Introduction to the Manual of Guidelines and Procedures

The Ministry of Environment and Energy (MOEE) Manual of Guidelines and Procedures is a set of documents governing operational decision-making at the ministry. It references Acts for which the ministry is responsible and Regulations which provide the rules for government. The manual incorporates Operational Policies which interpret corporate intent, and Guidelines and Procedures which provide the mechanisms for implementing them. It also includes Standards which are invoked either by Regulations or Operational Policies. The Manual, however, does not exist as a set of bound volumes. For copies of this electronic document, please phone 416-323-4444 and request a set of two WordPerfect 5.1 diskettes. The Manual is also accessible for downloading on the Internet from the Government of Ontario's World Wide Web site with the address <http://www.gov.on.ca>. From that page, choose the Ministry of Environment and Energy to access the Manual.

Following is a list of the current guidelines and procedures used by MOEE staff in their daily operations, organized by topic. The guidelines are referenced by codes of the type G-1, with the alphabetic character signifying the chapter in the Manual to which the guideline belongs.

Procedures support specific guidelines. Procedures include the ministry's technical and operational manuals. The procedures are referenced by codes of the type G-1-1, thus signifying the guideline to which they relate. Lengthy manuals, or those with extensive graphics may not be included in the Manual of Guidelines and Procedures.

As indicated below, documents not available in the Manual can be obtained through Publications Ontario, from the Public Information Centre (PIC), or from a ministry branch/section.

This service will provide copies of individual documents. Those which are less than 15 pages long can be requested by entering the PIBS number indicated below. Other documents can be ordered by mail either through this system or by speaking to a public information officer at (416) 323-4321 or 1-800-565-4923.

Note: PIBS (Public Information Bank System) is the ministry's cataloguing code number required for document identification.

GUIDELINE/PROCEDURE		# of Pages	COMMENTS	PIBS #
A-1	Combustion and Air Pollution Control Requirements for New Municipal and Biomedical Waste Incinerators	8		1310-01
